About us

Al Hashemiah International Contracting Company (HICC) is a construction Company, established in 2002 as a subsidiary from Alhashemiah International Group, Today we are equipped to face the challenges of the new millennium and present ourselves as reliable partners in executing turnkey Projects as well as manufacturing capability.

HICC specializes in the Civil and Electro-mechanical construction adding to manufacturing for piping ,Heat exchanger ,Super heater ,Pressure Vessels ,equipment and steel structure.

HICC covers the market of Power Generation, Petroleum Oils and Gases, Petrochemicals, Chemicals, Water Treatment, Fertilizers, and Industrial Projects domestically and globally.

HICC is committed to deliver a product and service of the highest quality that meets not only the international standards of quality, but also safety and health ones, and with an awareness of the growing concerns of environmental issues. International corporations like GS, GE, SIEMENS, RWE, MITSUBISHI, Technip, Maire Tecnimont, CMI, HITACHI and ALSTOM which carry out operations around the world are among our closest clients and together a number of successful projects have been carried out.

HICC has two workshops sum up to 60,000 m2 which are stationed across Alexandria and Gamasa. From which, HICC manufactured and exported special high pressure parts to USA , Netherlands, Spain, Australia, Sri Lanka, Venezuela, Qatar, Syria, Turkey , KSA, UAE and Libya. HICC is already active in the Middle East region through branches in Arab gulf and other.

This domestic and global recognition came from the very basic belief of the Board and the Staff of HICC that success comes from the absolute fact of engaging actively in the dynamic global business environment, applying highest quality standards, considering environmental issues, applying newest technologies, and the most skilled labor.

CERTIFICATES

Meeting international standards became the most important indicator of a company's ability to compete globally. HICC is one of the elite companies in Egypt which gained certificates and accreditations from international specialized bodies such as:

- » In Management
HICC is certified the ISO 9001(Quality Management System).
- » In Environment
HICC is certified the ISO 14001 (Environment Management System).
- » In Health and Safety
HICC is certified the OHASES 18001 (Occupational Health and Safety).
- » From the American Society of Mechanical Engineering (ASME),
HICC is certified the
 - ASME (S) Stamp: of Manufacturing and Assembly of Power Boilers.
 - ASME (PP) Stamp: of Fabrication and Assembly of Pressure Piping.
 - ASME (U) Stamp: of Manufacturing of Pressure Vessels.
 - National Board (R) Stamp: of Metallic repairs and alteration.

VISION

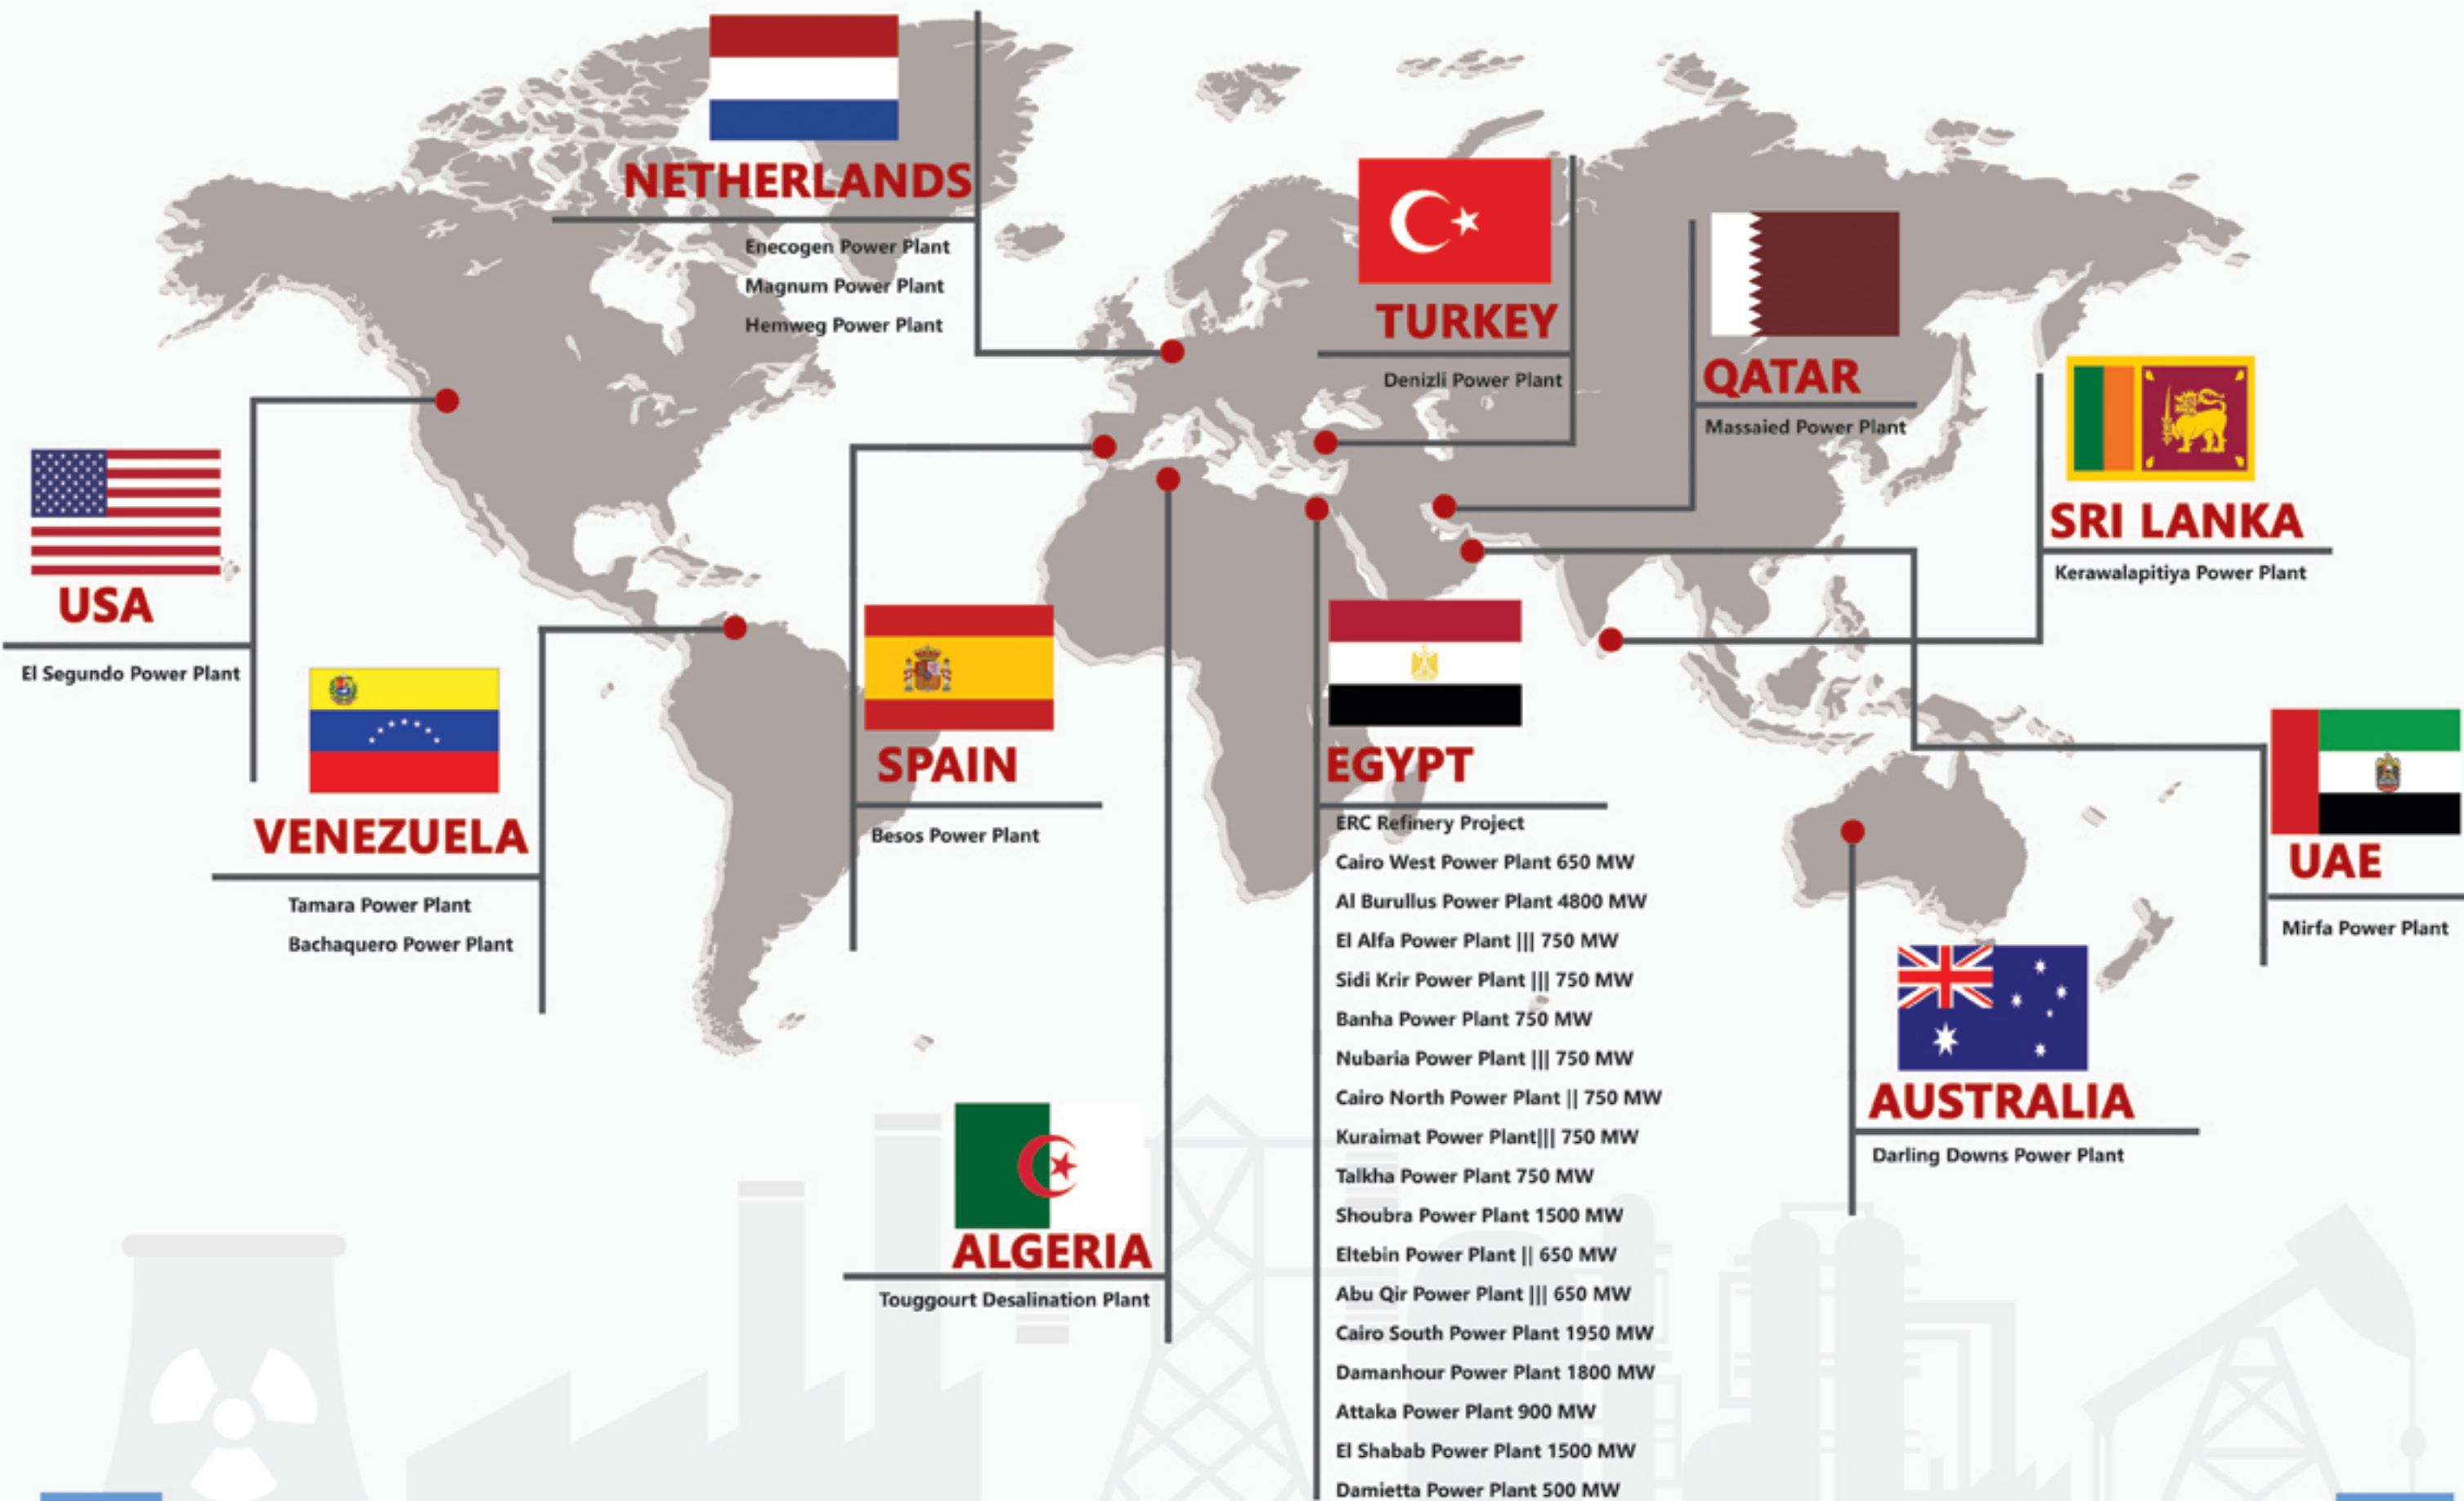

To be one of the leading main contractor and EPC companies in Middle East in addition to expand our fabrication and exporting worldwide.

MISSION

- » We meet clients' satisfaction by providing products & services with high specifications, competitive prices and on time in a safe, Environmental and innovative way.
- » We maintain long term integrated relationships with clients based on understanding client's needs, creating innovative solutions and making continuous improvement to deliver clients real added value.
- » We are keen on selecting our staff in a professional way building for them stable, safe, inspiring, open and healthy working environment.
- » We dedicate to continuously develop our staff capabilities and encourage them to work in harmony to satisfy our clients' needs in convenient creative way.
- » We support our suppliers, build long term relations and cooperate with them in integrated ethically way.
- » We strive to be a good corporate citizen by investing in our society, supporting researches and promoting awareness to be in line with highest international standards.

VALUES

- » **ETHICS**
We believe that our core value represent in moral respect fairness honesty and integrity.
- » **SAFETY**
We control risks to prevent accidents using extensive control planning and increasing team awareness providing a safe and healthy working environment.
- » **CUSTOMER SATISFACTION**
Our customers will receive high specification products and services, at a fair price and on time.
- » **INNOVATION**
We are dedicated to continuous improvements & delivery dynamic solutions.
- » **CARE FOR OUR EMPLOYEES**
Our employees are our greatest asset and they will be rewarded for their job skills, productivity, innovation, growth & the ability to be a team player.
- » **TEAMWORK**
Our culture teamwork allows us to work together within the company, with our customer and supplier to deliver better solutions and collectively accomplish goals.
- » **SOCIETY**
we believe that our responsibility extends beyond business there we invest in the society in which we operate.

INSTALLATION

Al Hashemiah International Contracting Company HICC, has a good experience in civil and electromechanical construction as well as manufacturing with multinational companies like GE, SIEMENS, RWE, MITSUBISHI, Technip, Maire Tecnimont, CMI, HITACHI and ALSTOM

That are needed in the projects of :

- » Oil and Gas Industry:
 - » Up Stream - On shore and off shore production.
 - » Midstream - Pipelines, storage and LNG.
 - » Downstream Refineries, Petrochemicals, OTC.
- » Power Generation:
 - » HRSG (Vertical & Horizontal).
 - » Fired Boilers.
 - » CTG.
 - » STG.
 - » BOP Systems.
 - » Heat Exchanger, Condensers.
 - » Economizers.
- » Water Treatment and Desalination Plant.
- » Petrochemicals.
- » Fertilizers Industry.
- » Other Industrial Projects.

OIL AND GAS INDUSTRY:

ERC REFINERY PROJECT

POWER GENERATION:

AL BURULLUS
POWER PLANT 4800 MW

BANHA
POWER PLANT 750 MW

ATTKA
POWER PLANT 900 MW

ERC REFINERY PROJECT

DELTA CO. FOR FERTILIZERS AND CHEMICAL INDUSTRIES

FABRICATION

Al Hashemiah International Contracting Company HICC, specializes in pressure and non-pressure parts manufacturing, through our qualified workshops as well as exporting those parts to our clients, as we exported to USA, Netherlands, Spain, Australia, Sri Lanka, Venezuela, Qatar, Syria, Turkey, UAE, KSA and Libya. HICC is already active in the Middle East region through branches in Arab gulf and other.

» Our scope includes but not limited to the following:

- » Piping & Piping systems.
- » Heat Exchangers.
- » Pressure Vessels & Tanks .
- » Boilers & Boiler parts.
- » Economizers.
- » Condenser.
- » Handling systems.
- » Steel Structure.

DESCRIPTION FOR COMPANY PRODUCTS

» Heat Exchangers

» Heat exchanger E203 A,B

» Heat exchanger for Sidi Kerir Petrochemicals Co.

» Piping Fabrication

» Piping for El shabab power station project (client Ansaldo).

» Boiler piping exported to El segando power plant in USA.

» Piping for power station Mirfa (UNITED ARAB EMIRATES).

» Boiler piping exported to Besos power plant in Spain.

» Shipping for boiler piping for west Damietta power station.

» Super heaters

» Super heater element for utility boiler (Thermal power station Abu Qir).

» Super heater coil element tube for Abu Qir thermal power station.

» Heat treatment for Super heater coil element tube for Abu Qir thermal power station.

» Super heater coil element tube for Abu Qir thermal power station.

» Pressure Vessels

» Pressure vessel for power station in Suez.

» Mirfa blowdown tank for power station.

» 6th OCT storage tank power station.

» Water treatment tank for Algeria .

» Deaerator for power station Mirfa (UNITED ARAB EMIRATES).

» Deaerator tower for El Shabab power station .

» Blowdown tank for West Damietta power station.

» Abo Zaabal Fertilizer & Chemical Co.

MAINTENANCE & REPAIR

Al Hashemiah Proudly offers major repairs and maintenance for Pressure and Non-Pressure parts, through comply with the international standards. Our capability and trained teams provides repairing and revamping services, either on/off-site. This domestic and global recognition came from the basic belief of the Board and the Staff of HICC has success comes from the absolute fact of engaging actively in the dynamic global business environment, applying highest quality standards, considering environmental issues, applying newest technologies, and the most skilled labor.

CATALYST UNLOADING

Catalyst unloading by vacuum pump and loading (Primary reformer by UNIDENSE TECHNOLOGY, low temp shift reactor , High temp shift reactor and secondary reformer)
